

## GENERAL INFORMATION

### VENUE

Polish Baltic Frédéric Chopin Philharmony  
Ołowianka 1  
80-751 Gdańsk, Poland  
[www.filharmonia.gda.pl](http://www.filharmonia.gda.pl)

### DATE

8–11 May 2022

### ORGANIZING SOCIETY

European Society for Virology  
[www.eusv.eu](http://www.eusv.eu)

### CONGRESS CHAIR

Prof. Dr. hab. Krystyna Bienkowska-Szewczyk  
Department of Molecular Virology  
University of Gdańsk  
Gdańsk, Poland

### CONGRESS CO-CHAIR

Prof. Dr. rer. nat. habil. Dr. med. vet. h.c. Thomas C. Mettenleiter  
Institute of Molecular Biology  
Friedrich-Loeffler-Institut  
Federal Research Institute for Animal Health  
Greifswald, Germany

### IMPORTANT DEADLINES

Abstract submission deadline	23 January 2022
Notification of abstract acceptance	February 2022
Early bird registration deadline	28 February 2022

### INDUSTRIAL PARTICIPATION

The congress will host an exhibition, which will bring together manufacturers and suppliers in the fields of virology research. Latest studies and new applications will be highlighted during industrial symposia. Interested companies please contact Conventus.

### PROFESSIONAL CONGRESS ORGANIZER

Conventus Congressmanagement & Marketing GmbH  
Carolin Geppert

# 8th EUROPEAN CONGRESS OF VIROLOGY 2022

[www.eusv-congress.eu](http://www.eusv-congress.eu)

8–11 May 2022

Gdańsk  
Poland

## WELCOME NOTE

As organizers of the 8<sup>th</sup> European Congress of Virology we warmly invite you to join this international gathering of the European community of virologists in Gdańsk, after two years of pandemic restrictions.

The pandemic was a difficult time for many of us but it was also a time of great research effort of virologists, enormous scientific progress and a revolution in vaccine development.

ECV 2022 will be a great opportunity for European virologists representing various fields of research to meet, to present their results and to discuss all the developments in virology which happened during this unusual time. It will be also a great opportunity to meet friends, renew old acquaintances and establish new collaborations. With support of the International Scientific Committee we strive to put together a high quality, interesting and informative program. Although coronavirus studies will undoubtedly be a focus of ECV 2022, it is very important to have all virus species and research areas represented, including basic, clinical, veterinary and plant virology.

We cannot guarantee at this moment that ECV 2022 can be held in personal attendance. The hosts and the congress organizer Conventus will make all efforts to organize it in a safe and efficient way, combining the conventional meeting solutions with modern technology like ePoster terminals. The excellent meeting venue and beautiful city of Gdańsk are ready to welcome you warmly in May 2022.

Gdańsk is a millennium old historic city located at the Baltic coast. It is famous for its history, beautiful architecture, many museums, and art galleries. The ECV 2022 venue is the Baltic Philharmonic Music and Congress Center, located in the heart of the old city.

The 8<sup>th</sup> ECV will continue the tradition of two decades of European Virology meetings which started in Glasgow in 2000. Your participation in the 8<sup>th</sup> ECV in Gdańsk will help us to make it a scientifically stimulating and socially enjoyable event.

We look forward very much to welcoming you to Gdańsk for the 8<sup>th</sup> European Congress of Virology.

Krystyna Bienkowska-Szewczyk and  
Thomas C. Mettenleiter  
Congress Chairs

## PROGRAM & ABSTRACT INFORMATION

### WHAT TO EXPECT?

- High-quality plenary lectures
- Interactive sessions
- Scientific symposia
- Oral presentations
- ePoster sessions
- Industry supported sessions
- Poster prizes
- Networking program

### INTERACTIVE SESSIONS

- Virology science pre- and postpandemic – what we have learned
- “Revolution” in vaccines – what is gained, what is the future

### ABSTRACT INFORMATION

Take your chance to become part of the scientific program. Submit an abstract on your current research and do not miss the opportunity to present it on an international level! We cordially invite you to submit abstracts for oral and poster presentations related to the topics mentioned below.

All information and guidelines for submission can be found online at [www.eusv-congress.eu](http://www.eusv-congress.eu).

### DEADLINE FOR ABSTRACT SUBMISSION IS 23 JANUARY 2022!

### ABSTRACT TOPICS

- Antivirals
- Archeovirology
- Bacteriophages
- Glycoviropology
- Immune response to virus infection
- Innovative diagnostics
- Invertebrate viruses
- One Health
- Plant viruses
- SARS-CoV2 and other coronaviruses
- Structural virology
- Vaccines
- Veterinary virology
- Viral vectors
- Virotherapy
- Virus and cancer
- Virus-host interactions: entry, replication, assembly, egress
